Koblenz, Germany || [fonyuyclement@gmail.com](mailto:fonyuyclement@gmail.com) || +49 16096286371

### Executive Summary

---

Junior software developer with a strong background in Mathematics. Secondary school Maths teacher with over 3 years of experience. A critical thinker with the ability to develop simple and logical algorithms to solve problems. A results-oriented mindset. Appreciated in school as a teacher who is able to break down Mathematical problems to the understanding of junior students. Self motivated and a good team player. As a teacher, I was redeployed to a different school within the same academic year to cover up for unavailable staff but it was easy for me as I easily adapt to change and I am always excited about new technology. Self disciplined, open minded, excellent communication skills in English and level A2 in a Deutsch.

### Education

---

	Bachelor of Science - Mathematics	
October 2009 - June 2011	Government Bilingual High School Mbengwi	Bamenda, Cameroon
	General Certificate of Education (Advanced Level: Maths, Chemistry, Physics, Biology)	
October 2004 - June 2009	Government Bilingual High School Mbengwi	Bamenda, Cameroon
	General Certificate of Education(Ordinary Level: Maths, Physics, Chemistry, Biology, Economics, Geography, History, Additional Math, English, French, Human Biology)	

### Technical Skill Set

---

Technologies	Databases	Frameworks	Version Control
HTML CSS Javascript Python	MySQL	jQuery Bootstrap	Github

## Portfolio Projects

---

1. **African Presidents** - This is a website about the Political history of famous African Leaders.  
Technologies used to build : HTML, CSS. Github: <https://github.com/F-Clement/famous-african-presidents>
2. **Football Champions** -This is a website that intends to test knowledge of football lovers with a quiz.  
Technologies used to build : HTML, CSS, JavaScript. Github: <https://github.com/F-Clement/football-champion>
3. **Product Marketers** - This is an application designed to improve sales for companies marketing on social media.  
Technologies used : HTML, CSS, JavaScript, Python. Github: <https://github.com/F-Clement/product-marketers>

## Work Experience

---

Nov 2018 - Nov 2020      Government High School      Teacher (Maths)      Mundani-Wabane (Cameroon)

- Teaching students using a competence based approach therefore bringing imaginations to what can be seen.
- Evaluating students through sequential tests, grading and recording performance in a records book.

Nov 2020 - Oct 2022      Government Bilingual High School      Teacher (Maths)      Muea (Cameroon)

- Teaching students using a competence based approach therefore bringing imaginations to what can be seen.
- Evaluating students through sequential tests, grading and recording performance in a records book.

## Certificates/Courses

---

- Udacity - Introduction to Python Programming
- Code Institute - 5 Days Coding Challenge

## Additional Information/Interests

---

- I am currently studying for my fourth portfolio project. This project will be a full stack project as it will involve Design Thinking, Agile Development, Advanced Javascript with jQuery, Building with Bootstrap, APIs and Frameworks, Testing Code and Rapid coding with Django.
- Regular engagement on Slack tech forum.
- Fluent in English and currently learning Deutsch (Level A2)
